Summary

Software and Network Engineering
Mechatronic Engineering
BEDU - Javascript Fullstack Bootcamp

Bio:

I would like to continue improving my skills, preferably as a QA tester or fullstack developer with JavaScript, but open to try any software field.

Experience:

- * Worked as a quality assurance tester in a project for Citi Banamex through the company TCS from November 2021 to July 2022.
- * Ran automated and manual testing with python, gherkin, Java and selenium.
- * Document management with ALM and Jira.
- * One month experience as QA Lead

Skills:

- * Front end development with HTML, CSS, JavaScript, some React and Tailwind.
- * API consumption with JavaScript
- * Basic Python and Java
- * Intermediate C++
- * Node.js, express.js and SQL for backend

Experience

QA Tester

Tata Consultancy Services

Sep 2021 - Jan 2023 (1 year 5 months)
